A GOOD REPORT

REPRESENTATIVE BOOHER'S BILL
WILL LIKELY PASS.

TO BOOM CANADA LAND

Wm. J. White, Advertising Agent,
Spending \$70,000 Annually—Bryan
Wanted to Be a Senator.

(By W. C. Van Cleave.)

Washington, D. C., Jan. 31.—Representative Booher has secured a favorable report from the committee on military affairs on his bill "for the relief of Hosea Stone of Nodaway county." According to the official records and the proofs submitted, Mr. Stone served nearly four years during the civil war, and in spite of this fact he was left at the close of the war without a pensionable status. He enlisted in 1861 with the New Hampshire infantry volunteers and served a year, when he was honorably discharged to re-enlist in the regular army. He served in the United States artillery until February, 1864, when he was again discharged. He then enlisted again and remained with the army until July, 1865, when he desired to return home, and did so, and by that act became technically a deserter, although he had served through the war and had been twice honorably discharged. The bill to relieve him of this disability will very likely pass as reported by the committee, and secure to him the benefits of the laws relating to old soldiers.

During a senate investigation the past week William J. White, special advertising agent for the Canadian government, admitted that he had been spending nearly \$70,000 annually for advertising Canadian lands before the farmers of this country with the object of inducing immigration into Canada. As a result he said more than 800,000 Americans had gone to Canada during the last ten years, and only last year 140,000 crossed the border from the United States. He declined to estimate the number who had become dissatisfied and returned to this country. It was also developed that a certain concern that supplies "patent insides" to country newspapers had been receiving \$42,000 per year for writing articles booming Canada, and which were printed as news. A great deal of such stuff has been accepted and carried by metropolitan newspapers. The ready print house no doubt deceived many of the smaller publishers, but Canada can hardly be blamed for booming her own resources and adding to the volume of proofs that intelligent advertising pays.

The death of former Senator Shelby M. Cullom of Illinois removes from the government service one of its most distinguished servants. Mr. Cullom retired from the United States senate last year, after serving in that body as a Republican for thirty years, and after having been in office of one kind or another for more than fifty years. He was a protege during boyhood of Abraham Lincoln and President Wilson appointed him on the Lincoln Memorial commission. He had expressed a desire to live until that work was completed, but during the past month he weakened rapidly. He has in fact been very weak for the past two or three years, and may be said to have gradually worn out. He was 84 years of age.

Secretary Bryan made a remark at a dinner here a few evenings ago that created considerable comment. Speaking of the realization of life's ambitions, he said he had been disappointed in one great ambition of his life. This, he said, was to be a United States senator. From early boyhood he had cherished an ambition, not to be president nor secretary of state, but to hold a seat in the senate. In this he had failed, while Senator Myers, in whose honor the dinner was given, had reached the goal without ever having sought the place. The political world has been busy wondering whether it has any bearing on his future. They are wondering whether he has abandoned hope of the presidency and whether he may not have his eyes on the seat of Senator Hitchcock of Nebraska, with whom he has never agreed politically.

As a matter of political history, Mr. Bryan's case is not unfamiliar. The political highway is strewn with the wrecks of noble ambitions even of men who, in the eyes of the world, have succeeded. Mr. Taft would rather have been a justice of the supreme court

than to have been president. Mr. Blaine wanted to be president and was made most anything else. The country is full of men who wanted to be one thing and were made something else. And it very frequently happens that the something else, even though it ranks higher or carries a larger salary, does not fully satisfy the original ambition. Mr. Bryan, as United States senator, would have been able to do himself and the country greater credit than he can hope to as secretary of state. Men of his eloquence, his brilliance, and his unusually diversified equipment are needed in the senate, which, during recent years, has become more a body of business men than of statesmen. Secretaries of state come and go, and but few cabinet members have made a lasting impression on the world's history, but the names of many great senators long since gone to their reward, are familiar to every home. He may well cherish the regret and his friends may still hope that he may yet realize this ambition.

His Brother Died.

Mrs. Berney Harris received a telegram Wednesday morning from Mr. Harris, announcing "the death of his brother, David M. Harris of New York City. Mr. Harris left Sunday night for New York in response to a message telling of the critical illness of his brother. He arrived two hours before his death, which was caused by heart trouble. Mr. Harris and his brother were associated in business together for twenty-five years before he came to Maryville, at Malden and St. Louis, Mo., in the manufacture of clothing and as jobbers. The death of his brother will be a keen loss to Mr. Harris.

Went to Pickering.

A party composed of Rev. Gilbert S. Cox, Walter Wray, Chester Bennett, C. C. Corwin, George Kemp, L. B. Tracy, John Mutz, Emmett Scott, Prof. J. A. Lesh and Rolla Alexander went to Pickering Tuesday evening in the Cox auto and the Kemp car. They attended the meeting of the Methodist Brotherhood in that town.

Miss Effie Drum of Bedford and niece, Pearl Drum, returned home Wednesday from a visit in Maryville with Miss Drum's sister, Mrs. L. B. Tracy. Little Miss Pearl came to visit her baby sister, Ruby, who has lived at the Tracy home since the death of her mother.

Miss Clara Roelofson left Wednesday morning for visits in Savannah, St. Joseph and Kansas City, stopping for a visit with her brother, I. C. Roelofson of Barnard on her return.

CAN RAISE MORE THE ASSESSMENT

POULTRY COULD BE DOUBLED,
SAYS E. L. ANDREWS.

MISSOURI HAS CLIMATE

Also Raises Plenty of Grains Necessary to Feed the Poultry Produced.

Under the head of "discussion of timely poultry topics," Col. Ed L. Andrews of this city, writes as follows to the Missouri Farmer of Columbia:

Mr. J. W. Spillman says in regard to the future meat supply in The Missouri Farmer, issue of December 1st, referring to poultry:

"There is therefore, no prospect of increase in products of this class in greater ratio than the increase in population.

You would naturally infer from that statement that Missouri was producing all the poultry possible unless some one moved in and chose to take up the poultry industry. The facts are that in two years time from January 1st, 1914, Missouri could be made to produce twice the poultry she did in 1913. This would mean several million dollars increase in this one industry. In the first place Missouri has the climate especially adapted to poultry raising. It is better than if it were located farther north or farther south. We also raise all the grains necessary to feed the poultry which many states do not. Why is it then that the farmers do not raise a fowl to maturity cheaper than any one else. There is a great long list of reasons. Do you know that of all the chickens hatched on the average farm not more than half of them are raised to maturity. The farmers' wives tell me this. It must be so. What is the cause of so great a fatality? Improper mating of parent stock. Inbreeding. Poorly brooded chicks. Not properly fed. White diarrhoea, vermin, hawks and crows. These things could all be avoided if the poultry department on the farm could be handled in an intelligent and business-like manner. You would be safe in saying that three-fourths of the farm raised poultry is entirely looked after and cared for by the wife and children. Another very apparent reason is insufficient housing capacity. When winter comes the poultry is nearly all disposed of because of lack of houses. There are hundreds who never see the poultry suggestions in the farm papers and poultry journals. The solution of the problem is this: There should be a competent poultry adviser in each county, the state paying half the expense and the county half. This expert should go from farm to farm giving personal advice and instruction. If you could demonstrate to the man that by investing \$1 he could make \$2 you would gain your point. The per cent is even better than that in some poultry raising. I find people every day eager for information along the lines of poultry culture. One lady phoned to me last week to come out twenty miles in the country to look her flock over and pick out some breeding stock for spring. The lady was breeding White Wyandottes exclusively and we selected a breeding pen for spring use. A little later she had the pen scored by Judge E. M. Quay of LaPorte, Ind., and some of the pullets scored as high as 96. She expects to raise her next season's stock from this pen and use the range flocks for market eggs only.

Merchants, bankers, railroads and farmers themselves are getting awake to the fact that poultry interest must be fostered and every thing possible done for its advancement. The bureau of animal industry and the United States department of agriculture are taking up the matter now preparatory to sending poultry experts to some of the southern states.

Why cannot Missouri have heart to heart talks to the farmers and demonstrate methods of poultry culture? I am for better poultry and more of it, an all-purpose fowl that will produce

FIELD-LIPPMAN'S MAN.

Melcomb Haywood Will Open Up Business Again in Maryville for St. Louis Firm.

The Field-Lippman piano firm of St. Louis will again open up their business in Maryville, that was closed up suddenly one day last September when the store's manager here, H. R. Hancock, disappeared and left the business in such shape that the store had to be closed until affairs could be gotten in shape again. The Field-Lippman firm had done a good business here and was doing well, so well that the firm has decided to start up again in their old place of business on North Main street, where George W. Hartley has opened a hardware business. Field-Lippman will keep a dozen or so pianos on hand for the present, until the new man has become acquainted with the field in the northwest counties.

GO TO CHURCH DAY

CANVASS TO BE MADE TOMORROW
BY 250 PEOPLE.

AN AUTO COMMITTEE

Selected, George L. Wilfley Being Chairman, to Bring the Aged and Feeble Ones to Church.

The real opening of the "Go-to-Church Sunday" campaign will take place tomorrow, when 250 people of all the churches will meet at the First Methodist church at 1:30 o'clock to receive their assignment of territory, and suggestions from the executive committee as to the modus operandi of a town-wide canvass. The city has been districted and every home in the city will be visited. The "Go-to-Church" visitors will ask you how many people there are in your home, and will then hand you a corresponding number of tickets. These tickets are to be presented at the church door when you and your family respond to the invitation Sunday morning. Admission to the churches will be by ticket, and then we can tell how many attended church on Sunday. If for any reason you find it impossible to go to the morning service, you can be counted in the evening service. The executive committee has six thousand of these tickets ready for tomorrow's canvass.

Saturday will be Tag Day, and two thousand tags will be used to decorate the members of the "I-am-going-to-Church-Sunday club." The tag brigade will work chiefly in the business district.

Mr. George L. Wilfley is chairman of the automobile committee. With him are associated Mr. Elias O'Neal, Mr. Edward Curfman, Mr. Chas. Graves and Mr. Roy Curfman. They will enlist the co-operation of the auto owners belonging to the various churches for the purpose of bringing the aged and feeble out to the church of their choice. Anyone who wishes to be taken to church next Sunday morning may phone to Mr. Wilfley at the Farmers' Trust company, Hanamoo 26, Farmers 49.

When you hear a knock at the door tomorrow afternoon, don't think, "peddler!" and open it far enough to let them see a scowling face, but swing it wide open with a smiling "Glad to see you." Then your "Go-to-Church-Sunday" visitors will be mighty glad that they volunteered for the canvass. If you are away tomorrow afternoon you will probably find a number of tickets under your door. You will know that the "Go-to-Church Sunday" folks have called on you, and, of course, you'll return their call by going to church next Sunday.

We do not know who wrote the following, but, no matter, it is worth reading: "We read somewhere the other day that the effort to make lawyers and storekeepers out of all our sons and piano players out of all our daughters, if persisted in for twenty years, is going to make potatoes worth \$8 per bushel. The starched collar fellow with his hair parted in the middle isn't worth near as much to the world as the big, brawny, horny handed man in overalls. And while we like music and all that, we would not give one good sensible girl who is capable of performing artistically on a grand, upright cook stove, with a dishpan accompaniment, for a front yard full of sweet young things of the wall flower variety who are fitted only for parlor and swell society."

A suit filed Wednesday was that of E. A. Johnson, administrator of the estate of Elias Mann vs. Sherman Pope and James M. Dammer. It is an appeal case from justice court. J. C. Growney is the attorney for the plaintiff, and Cook, Cummins & Dawson for the defendants.

WILLIAM JEWELL COMING.

To Play the Normal Basket Ball Team on Friday Night at the Normal.

According to present indications Maryville basket ball fans will have an opportunity of seeing some mighty fast playing next Friday night when the William Jewell players make their first appearance to a Maryville audience. William Jewell is still in the race for the state championship and hopes to get it. They are confident of defeating the Normal, but as the locals will have their regular line-up on the floor they will have to put up a good game to get the big end of the tally.

Friday night will be the first time that the Normal will have their full strength in the game. Quinn has not been able to play since the game at Tarkio on account of his knee, but if no accidents happen between now and Friday night all the men will be in the game. Tonight the Normals will have their final scrimmage work and will do a little rounding off in basket tossing and floor work tomorrow night.

The Kom-baks, made up of faculty men, will play the Cracker-Jacks at 5 o'clock today. Last night the Cubs defeated the Fives 12-11, and the Philos the None-Such 12-8.

WANT \$12,000,000 TAX

Cleveland Makes Demand Upon John D. Rockefeller.

Cleveland, Feb. 4.—John D. Fackler and William Agnew, deputy state tax officers for Cuyahoga county, went to the home of John D. Rockefeller on Forest Hill, East Cleveland, and filed a written demand on him that he pay his taxes on his personal estate, estimated at \$900,000,000, into the treasury of this county.

They claim that under the Warner tax law Rockefeller, by residing in the county for the greater part of the twelve months has made himself liable to taxation here.

The total of Rockefeller's personal property is as great as the entire tax duplicate of the entire county.

Tax officers did not see Rockefeller personally, but left a letter notifying him of their demands with members of his household.

The officers place Rockefeller's tax at \$12,000,000.

Virgil P. Kline, attorney for Rockefeller, said: "Mr. Rockefeller is a legal resident of the state of New York. He has not maintained a residence in Cleveland for a quarter of a century. He has already paid his taxes for the current year in New York."

FIVE WOMEN FINED \$100

Judge to Consider Jail Sentence if Money Is Not Forthcoming Within Three Days—Ringleader Weeps When Fine Is Imposed.

Waukegan, Ill., Feb. 4.—Mrs. A. J. Raymond, Mrs. Emma Stadfelt, Mrs. Anne Stadfelt, Mrs. Alma Walton and Mrs. Chris Sabie, accused of driving their neighbor, Mrs. John Richardson, out of Volo, Ill., by riding her on a rail, were fined \$100 each by Judge Donnelly. The women were given three days each to raise the money, during which time Judge Donnelly will consider the advisability of inflicting a jail sentence if the money is not forthcoming. They were unable to pay in court.

Mrs. Emma Stadfelt, wife of the village blacksmith, and known as "Captain Emma," was accused of being the leader of the women's raiding party. She wept bitterly when the fine was imposed.

Mrs. Richardson is the wife of a crippled village storekeeper. She had been the subject of village gossip, in which the name of her brother-in-law was involved. She was tried by a kitchen court of her neighbors six months ago and apparently was convicted. The women visited her home late one night, ordered her from the village, and, according to her story, placed her on a rail and rode her from her home.

In imposing sentence Judge Donnelly censured the women severely. Their sex alone saved the defendants, he said, from the maximum penalty, \$300 fine, and six months in jail.

Herman H. Lawler of Sheridan and Oshie S. Rush of Parnell were married Wednesday morning by Rev. Gilbert S. Cox at the parsonage.

Failure and Liquor.

"The first and most seductive peril, and the destroyer of most young men is the drinking of liquor. I am no temperance lecturer in disguise, but a man who knows and tells you what observation has proved to him; and I say to you that you are more likely to fail in your career from acquiring the habit of drinking liquor than from any or all other temptations likely to assail you.

You may yield to almost any other temptation and may reform—may brace up, and, if not recover lost ground, at least remain in the race, and secure and maintain a respectable position.

But from failure caused by the drink habit recovery is almost impossible. I have known but few exceptions to the rule."—Andrew Carnegie.

Attorney Ed Kelso of Grant City was in the city Wednesday on business.

both meat and eggs and that can be grown to maturity with the least possible expense.

Did you ever take a day off, leaving your responsibilities and cares all locked in your own home? It's a good thing to do. I have taken a day off occasionally ever since I was a small boy and went swimming on Sunday. A few days ago Mrs. A. and myself spent the day with a former friend of ours, Mr. and Mrs. W. M. Golding, in the west part of the county (Nodaway). You perhaps would have to travel over several counties to find a farm like this one. A progressive, up-to-date farmer with nothing but thoroughbred stock. First he showed us his string of Percheron horses. These he seemed to have in all ages from suckling colts up, and ranged in price

from \$200 to \$800 each. Next he took us to the Shorthorn cattle, all beef type. These he has been breeding only a few years, but has ready sale for all surplus stock to neighbor farmers at profitable prices. A pure white

male calf, 3 months old, took my eye. It looked as large as a yearling and was pretty enough to occupy the White House.

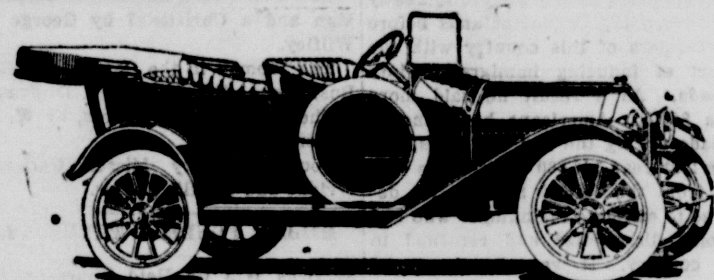

The hogs were all the Mammoth Poland-Chinas, all registered and most of them sired by a male weighing 900 pounds. The poultry consisted of Bronze turkeys and White Orpington chickens. The Orpingtons were all the Kellerstrass strain, his breeders costing from \$10 to \$20 each. A large flock of White Orpingtons on free range beats going to the "movies" for something to look at. This large farm consists mainly of timbered blue grass pasture, alfalfa fields and orchard. To say this man is progressive and making money is putting it mildly.

This day's visit was an object lesson to me demonstrating the established fact that thoroughbred stock and poultry can be fed and cared for as cheaply as mongrels.

A CHILD'S LAXATIVE IS "SYRUP OF FIGS"

They Love to Take It and It Doesn't Harm the Tender Little Stomach, Liver and Bowels.

If your little one's tongue is coated, it is a sure sign the stomach, liver and bowels need a gentle, thorough cleansing at once. When your child is cross, peevish, listless, pale, doesn't sleep, eat or act naturally; if breath is bad, stomach sour, system full of cold, throat sore, or if feverish, give a teaspoonful of "California Syrup of Figs," and in a few hours all the clogged-up, constipated waste, sour bile and undigested food will gently move out of the bowels, and you have a well, playful child again.

Sick children needn't be coaxed to take this harmless "fruit laxative." Millions of mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and sure. They also know a little given today saves a sick child tomorrow.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which contains directions for babies, children of all ages and for grown-ups plainly on the bottle. Beware of counterfeits sold here. Get the genuine, made by "California Fig Syrup Company." Don't be fooled!—Advertisement.

Mrs. Walter Mutz read a paper on the life of Lincoln, and Mrs. L. R. Holt gave the funeral address in memory of Washington that was delivered before congress by Richard Henry Lee, or "Lighthorse Harry," as he was called. Mrs. Omar Caterson acted as critic. During the business session Mrs. G. H. The Greatest Modern Educator Of Children— Mme. Montessori

On her recent tour of America included Battle Creek, the great Pure Food Center, in her itinerary. Speaking of diet for children, she makes the following statement (in the Chicago Daily Journal of December 31, 1913):

"Coffee and tea should never be placed within reach of a childish hand."

Besides being an educator, Madame Montessori is a physician, and bases this advice on her scientific knowledge that an ordinary cup of coffee contains about 2 1/2 grains of caffeine—a poisonous drug (also found in tea).

In these days of liberal education the average American parent is becoming informed concerning the baneful effects of tea and coffee drinking, not only on the youth, but on those further along in life.

How much better to place before the children (and older ones, too) a wholesome, nutritious, pure food-drink such as

POSTUM

Made only of prime whole wheat and a small per cent of pure molasses, Postum contains only the rich native value of the grain—good for young and old. Postum is free from caffeine or other harmful substance.

Postum comes in two forms:

Regular Postum—must be well boiled to bring out its rich flavor and food value. 15c and 25c packages.

Instant Postum—a soluble powder. A teaspoonful stirred in a cup of hot water—with cream and sugar—makes a delightful beverage instantly. 30c and 50c tins.

The cost per cup of both kinds is about the same.

A Statement.

The man that wrote the piece in the Daily Tribune about the select party at Winell's better find out who the party was. It shows how little sense some people have. If you have any spite don't put it in the newspaper. Go to his face and be a man about it. You may think you hurt somebody's feelings, but you hurt yourself worse than anybody else.

FRED WINELL.

A Statement From Dr. W. B. Heryford

In the Tribune's account of the proceedings of the circuit court of January 27, it is stated that in the disposition of the case of J. R. Heryford vs. W. B. Heryford, the defendant agreed to a division of the costs in the case, and that the defendant was enjoined from practicing medicine in Union township. As this statement was erroneous, a correction seems necessary. The defendant, Dr. W. B. Heryford, did not agree to pay any costs in the case, either of his own or the plaintiff's witnesses. All witnesses who were subpoenaed either by the plaintiff or defendant, will have to take up the matter of securing their fees and mileage with the circuit clerk. Furthermore the order of the court agreed upon did not and does not forbid Dr. W. B. Heryford from treating any patients who come from Union township to his place of residence to secure his services.—Adv.

A Simple Test

James J. Hill has said—"If you want to know whether you are destined to be a success or a failure in life, you can easily find out. The test is simple and it is infallible:—Are you able to save money? If not, drop out. You will lose. You may think not but you will lose as sure as you live. The seed of success is not in you."

A GOOD REPORT

REPRESENTATIVE BOOHER'S BILL
WILL LIKELY PASS.

TO BOOM CANADA LAND

Wm. J. White, Advertising Agent,
Spending \$70,000 Annually—Bryan
Wanted to Be a Senator.

(By W. C. Van Cleave.)

Washington, D. C., Jan. 31.—Representative Booher has secured a favorable report from the committee on military affairs on his bill "for the relief of Hosea Stone of Nodaway county." According to the official records and the proofs submitted, Mr. Stone served nearly four years during the civil war, and in spite of this fact he was left at the close of the war without a pensionable status. He enlisted in 1861 with the New Hampshire infantry volunteers and served a year, when he was honorably discharged to re-enlist in the regular army. He served in the United States artillery until February, 1864, when he was again discharged. He then enlisted again and remained with the army until July, 1865, when he desired to return home, and did so, and by that act became technically a deserter, although he had served through the war and had been twice honorably discharged. The bill to relieve him of this disability will very likely pass as reported by the committee, and secure to him the benefits of the laws relating to old soldiers.

During a senate investigation the past week William J. White, special advertising agent for the Canadian government, admitted that he had been spending nearly \$70,000 annually for advertising Canadian lands before the farmers of this country with the object of inducing immigration into Canada. As a result he said more than 800,000 Americans had gone to Canada during the last ten years, and only last year 140,000 crossed the border from the United States. He declined to estimate the number who had become dissatisfied and returned to this country. It was also developed that a certain concern that supplies "patent insides" to country newspapers had been receiving \$42,000 per year for writing articles booming Canada, and which were printed as news. A great deal of such stuff has been accepted and carried by metropolitan newspapers. The ready print house no doubt deceived many of the smaller publishers, but Canada can hardly be blamed for booming her own resources and adding to the volume of proofs that intelligent advertising pays.

The death of former Senator Shelby M. Cullom of Illinois removes from the government service one of its most distinguished servants. Mr. Cullom retired from the United States senate last year, after serving in that body as a Republican for thirty years, and after having been in office of one kind or another for more than fifty years. He was a protegee during boyhood of Abraham Lincoln and President Wilson appointed him on the Lincoln Memorial commission. He had expressed a desire to live until that work was completed, but during the past month he weakened rapidly. He has in fact been very weak for the past two or three years, and may be said to have gradually worn out. He was 84 years of age.

Secretary Bryan made a remark at a dinner here a few evenings ago that created considerable comment. Speaking of the realization of life's ambitions, he said he had been disappointed in one great ambition of his life. This, he said, was to be a United States senator. From early boyhood he had cherished an ambition, not to be president nor secretary of state, but to hold a seat in the senate. In this he had failed, while Senator Myers, in whose honor the dinner was given, had reached the goal without ever having sought the place. The political world has been busy wondering whether it has any bearing on his future. They are wondering whether he has abandoned hope of the presidency and whether he may not have his eyes on the seat of Senator Hitchcock of Nebraska, with whom he has never agreed politically.

As a matter of political history, Mr. Bryan's case is not unfamiliar. The political highway is strewn with the wrecks of noble ambitions even of men who, in the eyes of the world, have succeeded. Mr. Taft would rather have been a justice of the supreme court

than to have been president. Mr. Blaine wanted to be president and was made most anything else. The country is full of men who wanted to be one thing and were made something else. And it very frequently happens that the something else, even though it ranks higher or carries a larger salary, does not fully satisfy the original ambition. Mr. Bryan, as United States senator, would have been able to do himself and the country greater credit than he can hope to as secretary of state. Men of his eloquence, his brilliance, and his unusually diversified equipment are needed in the senate, which, during recent years, has become more a body of business men than of statesmen. Secretaries of state come and go, and but few cabinet members have made a lasting impression on the world's history, but the names of many great senators long since gone to their reward, are familiar to every home. He may well cherish the regret and his friends may still hope that he may yet realize this ambition.

His Brother Died.

Mrs. Berney Harris received a telegram Wednesday morning from Mr. Harris, announcing the death of his brother, David M. Harris of New York City. Mr. Harris left Sunday night for New York in response to a message telling of the critical illness of his brother. He arrived two hours before his death, which was caused by heart trouble. Mr. Harris and his brother were associated in business together for twenty-five years before he came to Maryville, at Malden and St. Louis, Mo., in the manufacture of clothing and as jobbers. The death of his brother will be a keen loss to Mr. Harris.

Went to Pickering.

A party composed of Rev. Gilbert S. Cox, Walter Wray, Chester Bennett, C. C. Corwin, George Kemp, L. B. Tracy, John Mutz, Emmett Scott, Prof. J. A. Lesh and Rolla Alexander went to Pickering Tuesday evening in the Cox auto and the Kemp car. They attended the meeting of the Methodist Brotherhood in that town.

Miss Effie Drum of Bedford and niece, Pearl Drum, returned home Wednesday from a visit in Maryville with Miss Drum's sister, Mrs. L. B. Tracy. Little Miss Pearl came to visit her baby sister, Ruby, who has lived at the Tracy home since the death of her mother.

Miss Clara Roelofson left Wednesday morning for visits in Savannah, St. Joseph and Kansas City, stopping for a visit with her brother, I. C. Roelofson of Barnard on her return.

CAN RAISE MORE THE ASSESSMENT

POULTRY COULD BE DOUBLED,
SAYS E. L. ANDREWS.

MISSOURI HAS CLIMATE

Also Raises Plenty of Grains Necessary to Feed the Poultry Produced.

Under the head of "discussion of timely poultry topics," Col. Ed L. Andrews of this city, writes as follows to the Missouri Farmer of Columbia:

Mr. J. W. Spillman says in regard to the future meat supply in The Missouri Farmer, issue of December 1st, referring to poultry:

"There is therefore, no prospect of increase in products of this class in greater ratio than the increase in population.

You would naturally infer from that statement that Missouri was producing all the poultry possible unless some one moved in and chose to take up the poultry industry. The facts are that in two years time from January 1st, 1914, Missouri could be made to produce twice the poultry she did in 1913. This would mean several million dollars increase in this one industry. In the first place Missouri has the climate especially adapted to poultry raising. It is better than if it were located farther north or farther south. We also raise all the grains necessary to feed the poultry which many states do not. Why is it then that the farmers do not raise a fowl to maturity cheaper than any one else. There is a great long list of reasons. Do you know that of all the chickens hatched on the average farm not more than half of them are raised to maturity. The farmers' wives tell me this. It must be so. What is the cause of so great a fatality? Improper mating of parent stock. Inbreeding. Poorly brooded chicks. Not properly fed. White diarrhoea, vermin, hawks and crows. These things could all be avoided if the poultry department on the farm could be handled in an intelligent and business-like manner. You would be safe in saying that three-fourths of the farm raised poultry is entirely looked after and cared for by the wife and children. Another very apparent reason is insufficient housing capacity. When winter comes the poultry is nearly all disposed of because of lack of houses. There are hundreds who never see the poultry suggestions in the farm papers and poultry journals. The solution of the problem is this: There should be a competent poultry adviser in each county, the state paying half the expense and the county half. This expert should go from farm to farm giving personal advice and instruction. If you could demonstrate to the man that by investing \$1 he could make \$2 you would gain your point. The per cent is even better than that in some poultry raising. I find people every day eager for information along the lines of poultry culture. One lady phoned to me last week to come out twenty miles in the country to look her flock over and pick out some breeding stock for spring. The lady was breeding White Wyandottes exclusively and we selected a breeding pen for spring use. A little later she had the pen scored by Judge E. M. Quay of LaPorte, Ind., and some of the pullets scored as high as 96. She expects to raise her next season's stock from this pen and use the range flocks for market eggs only.

Merchants, bankers, railroads and farmers themselves are getting awake to the fact that poultry interest must be fostered and every thing possible done for its advancement. The bureau of animal industry and the United States department of agriculture are taking up the matter now preparatory to sending poultry experts to some of the southern states.

Why cannot Missouri have heart to heart talks to the farmers and demonstrate methods of poultry culture? I am for better poultry and more of it, an all-purpose fowl that will produce

FIELD-LIPPMAN'S MAN.

Melcomb Haywood Will Open Up Business Again in Maryville for St. Louis Firm.

The Field-Lippman piano firm of St. Louis will again open up their business in Maryville, that was closed up suddenly one day last September when the store's manager here, H. R. Hancock, disappeared and left the business in such shape that the store had to be closed until affairs could be gotten in shape again. The Field-Lippman firm had done a good business here and was doing well, so well that the firm has decided to start up again in their old place of business on North Main street, where George W. Hartley has opened a hardware business. Field-Lippman will keep a dozen or so pianos on hand for the present, until the new man has become acquainted with the field in the northwest counties.

GO TO CHURCH DAY

CANVASS TO BE MADE TOMORROW
BY 250 PEOPLE.

AN AUTO COMMITTEE

Selected, George L. Wilfley Being Chairman, to Bring the Aged and Feeble Ones to Church.

The real opening of the "Go-to-Church Sunday" campaign will take place tomorrow, when 250 people of all the churches will meet at the First Methodist church at 1:30 o'clock to receive their assignment of territory, and suggestions from the executive committee as to the modus operandi of a town-wide canvass. The city has been districted and every home in the city will be visited. The "Go-to-Church" visitors will ask you how many people there are in your home, and will then hand you a corresponding number of tickets. These tickets are to be presented at the church door when you and your family respond to the invitation Sunday morning. Admission to the churches will be by ticket, and then we can tell how many attended church on Sunday. If for any reason you find it impossible to go to the morning service, you can be counted in the evening service. The executive committee has six thousand of these tickets ready for tomorrow's canvass.

Saturday will be Tag Day, and two thousand tags will be used to decorate the members of the "I-am-going-to-Church-Sunday club." The tag brigade will work chiefly in the business district.

Mr. George L. Wilfley is chairman of the automobile committee. With him are associated Mr. Elias Orenar, Mr. Edward Curfman, Mr. Clive Graves and Mr. Roy Curfman. They will enlist the co-operation of the auto owners belonging to the various churches for the purpose of bringing the aged and feeble out to the church of their choice. Anyone who wishes to be taken to church next Sunday morning may phone to Mr. Wilfley at the Farmers' Trust company, Hanamoo 26, Farmers 49.

When you hear a knock at the door tomorrow afternoon, don't think, "peddler!" and open it far enough to let them see a scowling face, but swing it wide open with a smiling "Glad to see you." Then your "Go-to-Church-Sunday" visitors will be mighty glad that they volunteered for the canvass. If you are away tomorrow afternoon you will probably find a number of tickets under your door. You will know that the "Go-to-Church Sunday" folks have called on you, and, of course, you'll return their call by going to church next Sunday.

We do not know who wrote the following, but, no matter, it is worth reading: "We read somewhere the other day that the effort to make lawyers and storekeepers out of all our sons and piano players out of all our daughters, if persisted in for twenty years, is going to make potatoes worth \$8 per bushel. The starched collar fellow with his hair parted in the middle isn't worth near as much to the world as the big, brawny, horny handed man in overalls. And while we like music and all that, we would not give one good sensible girl who is capable of performing artistically on a grand, upright cook stove, with a dishpan accompaniment, for a front yard full of sweet young things of the wall flower variety who are fitted only for parlors and swell society."

A suit filed Wednesday was that of E. A. Johnson, administrator of the estate of Elias Mann vs. Sherman Pope and James M. Dammer. It is an appeal case from justice court. J. C. Growney is the attorney for the plaintiff, and Cook, Cummins & Dawson for the defendants.

WILLIAM JEWELL COMING.

To Play the Normal Basket Ball Team on Friday Night at the Normal.

According to present indications Maryville basket ball fans will have an opportunity of seeing some mighty fast playing next Friday night when the William Jewell players make their first appearance to a Maryville audience. William Jewell is still in the race for the state championship and hopes to get it. They are confident of defeating the Normal, but as the locals will have their regular line-up on the floor they will have to put up a good game to get the big end of the tally.

Friday night will be the first time that the Normal will have their full strength in the game. Quinn has not been able to play since the game at Tarkio on account of his knee, but if no accidents happen between now and Friday night all the men will be in the game. Tonight the Normals will have their final scrimmage work and will do a little rounding off in basket tossing and floor work tomorrow night.

The Kom-baks, made up of faculty men, will play the Cracker-jacks at 5 o'clock today. Last night the Cubs defeated the Fives 12-11, and the Philos the None-Such 12-8.

WANT \$12,000,000 TAX

Cleveland Makes Demand Upon John D. Rockefeller.

Cleveland, Feb. 4.—John D. Fackler and William Agnew, deputy state taxation officers for Cuyahoga county, went to the home of John D. Rockefeller on Forest Hill, East Cleveland, and filed a written demand on him that he pay his taxes on his personal estate, estimated at \$900,000,000, into the treasury of this county.

They claim that under the Warnes tax law Rockefeller, by residing in the county for the greater part of the twelve months has made himself liable to taxation here.

The total of Rockefeller's personal property is as great as the entire tax duplicate of the entire county.

Tax officers did not see Rockefeller personally, but left a letter notifying him of their demands with members of his household.

The officers place Rockefeller's tax at \$12,000,000.

Virgil P. Kline, attorney for Rockefeller, said: "Mr. Rockefeller is a legal resident of the state of New York. He has not maintained a residence in Cleveland for a quarter of a century. He has already paid his taxes for the current year in New York."

FINED \$100

NONE OF THEM ABLE TO PAY

Judge to Consider Jail Sentence if Money Is Not Forthcoming Within Three Days—Ringleader Weeps When Fine Is Imposed.

Waukegan, Ill., Feb. 4.—Mrs. A. J. Raymond, Mrs. Emma Stadfelt, Mrs. Anne Stadfelt, Mrs. Alma Walton and Mrs. Chris Sable, accused of driving their neighbor, Mrs. John Richardson, out of Volo, Ill., by riding her on a rail, were fined \$100 each by Judge Donnelly. The women were given three days each to raise the money, during which time Judge Donnelly will consider the advisability of inflicting a jail sentence if the money is not forthcoming. They were unable to pay in court.

Mrs. Emma Stadfelt, wife of the village blacksmith, and known as "Captain Emma," was accused of being the leader of the women's raiding party. She wept bitterly when the fine was imposed.

Mrs. Richardson is the wife of a crippled village storekeeper. She had been the subject of village gossip, in which the name of her brother-in-law was involved. She was tried by a kitchen court of her neighbors six months ago and apparently was convicted. The women visited her home late one night, ordered her from the village, and, according to her story, placed her on a rail and rode her from her home.

In imposing sentence Judge Donnelly censured the women severely. Their sex alone saved the defendants, he said, from the maximum penalty, \$300 fine, and six months in jail.

JEWELERS & OPTICIANS

We have many difficult cases of eye troubles to deal with—optical defects—that only glasses will relieve. You may have had other glasses that did not suit you, and been thoroughly disgusted with them, but that is no reason why you shouldn't take time to get glasses that are worth while. Not any glasses, but ones that are exactly suited to your eyes. Our examinations are thorough and accurate. When will you call?

Failure and Liquor.

"The first and most seductive peril, and the destroyer of most young men is the drinking of liquor. I am no temperance lecturer in disguise, but a man who knows and tells you what observation has proved to him; and I say to you that you are more likely to fail in your career from acquiring the habit of drinking liquor than from any or all other temptations likely to assail you.

You may yield to almost any other temptation and may reform—may brace up, and, if not recover lost ground, at least remain in the race, and secure and maintain a respectable position.

But from failure caused by the drink habit recovery is almost impossible. I have known but few exceptions to the rule."—Andrew Carnegie.

Attorney Ed Kelso of Grant City was in the city Wednesday on business.

both meat and eggs and that can be grown to maturity with the least possible expense.

Did you ever take a day off, leaving your responsibilities and cares all locked in your own home? It's a good thing to do. I have taken a day off occasionally ever since I was a small boy and went swimming on Sunday. A few days ago Mrs. A. and myself spent the day with a former friend of ours, Mr. and Mrs. W. M. Golding, in the west part of the county (Nodaway). You perhaps would have to travel over several counties to find a farm like this one. A progressive, up-to-date farmer with nothing but thoroughbred stock. First he showed us his string of Percheron horses. These he seemed to have in all ages from suckling colts up, and ranged in price

from \$200 to \$800 each. Next he took us to the Shorthorn cattle, all beef type. These he has been breeding only a few years, but has ready sale for all surplus stock to neighbor farmers at profitable prices. A pure white

male calf, 3 months old, took my eye. It looked as large as a yearling and was pretty enough to occupy the White House.

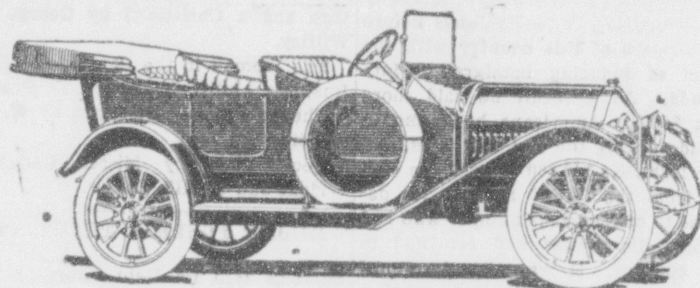

The hogs were all the Mammoth Poland-Chinas, all registered and most of them sired by a male weighing 900 pounds. The poultry consisted of Bronze turkeys and White Orpington chickens. The Orpingtons were all the Kellerstrass strain, his breeders costing from \$10 to \$20 each. A large flock of White Orpingtons on free range beats going to the "movies" for something to look at. This large farm consists mainly of timbered blue grass pasture, alfalfa fields and orchard. To say this man is progressive and making money is putting it mildly.

This day's visit was an object lesson to me demonstrating the established fact that thoroughbred stock and poultry can be fed and cared for as cheaply as mongrels.

A CHILD'S LAXATIVE IS "SYRUP OF FIGS"

They Love to Take It and It Doesn't Harm the Tender Little Stomach, Liver and Bowels.

If your little one's tongue is coated, it is a sure sign the stomach, liver and bowels need a gentle, thorough cleansing at once. When your child is cross, peevish, listless, pale, doesn't sleep, eat or act naturally; if breath is bad, stomach sour, system full of cold, throat sore, or if feverish, give a teaspoonful of "California Syrup of Figs," and in a few hours all the clogged-up, constipated waste, sour bile and undigested food will gently move out of the bowels, and you have a well, playful child again.

Sick children needn't be coaxed to take this harmless "fruit laxative." Millions of mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and sure. They also know a little given today saves a sick child tomorrow.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which contains directions for babies, children of all ages and for grown-ups plainly on the bottle. Beware of counterfeiters sold here. Get the genuine, made by "California Fig Syrup Company." Don't be fooled!—Advertisement.

and a social time was participated in, with Mrs. Boyer and Miss Young as hostesses. Chocolate and wafers were served. Those present were Edward Gray Abner Johnson, Lloyd Hartley, Clarence Warren, John McDougal, Edna Williams, Florence McFarland, Matilda Bramble, Bessie Porter, Bertha Anderson, Myrtle McPherron, Alta Huey, Amy VanBuren, Olivette Godsey, Miss Young and the host and hostess.

White, in the south part of Maryville. The ceremony was performed by Rev. R. L. Finch of the First Christian church. A wedding dinner followed. The bride wore a pale blue crepe gown trimmed in white shadow lace and white ribbon buckles. Mr. Baysinger and his bride went to Pickering at noon Wednesday to make their home. Mr. Baysinger has charge of the creamery station at Pickering and is a worthy, industrious young man.

Entertained King's Daughters.

Tuesday evening the King's Daughters class of the First M. E. church was entertained at the home of Miss Vada Foland, on West Second street, by Miss Vada Foland and Miss Marie Medsker. The class had a business meeting, after which progressive dominoes were played, and the prize, a nice box of home-made chocolates, was given to the winner, Miss Hene Kemp. Refreshments were served, after which every one departed for their home, declaring they had a very enjoyable time. Those present were the class teacher, Miss LaRue Kemp; Misses Hene Kemp, Jeannette and Izora Mutz, Dale and Arlie Hulet, Francyl Rickenbrode, Bee Sewell, Grace DeMotte, Gladys Hard, Ethel Wilson, Edna Moore, Mary Albright, Arline Pickens, Anna Bartram and Helen Burris.

M. I. Circle Meeting.

Mrs. Clinton Davis was hostess to the M. I. Circle Tuesday afternoon, its regular meeting time. The devotional service was led by Mrs. Eugene Ogden. Roll call was responded to with quotations from Washington or Lincoln, and the program was also in regard to America's greatest statesmen, as February is their birthday month. Mrs. Walter Mutz read a paper on the life of Lincoln, and Mrs. L. R. Holt gave the funeral address in memory of Washington that was delivered before congress by Richard Henry Lee, or "Lighthorse Harry," as he was called. Mrs. Omar Otterson acted as critic. During the business session Mrs. G. H. Colbert, representing the city federation, asked the Circle's support in the matter of helping to secure the car load of old magazines for shipment, for which the federation expects to receive a good sum for the court house rest room fund.

The Greatest Modern Educator Of Children— Mme. Montessori

On her recent tour of America included Battle Creek, the great Pure Food Center, in her itinerary. Speaking of diet for children, she makes the following statement (in the Chicago Daily Journal of December 31, 1913):

"Coffee and tea should never be placed within reach of a childish hand."

Besides being an educator, Madame Montessori is a physician, and bases this advice on her scientific knowledge that an ordinary cup of coffee contains about 2½ grains of caffeine—a poisonous drug (also found in tea).

In these days of liberal education the average American parent is becoming informed concerning the baneful effects of tea and coffee drinking, not only on the youth, but on those further along in life.

How much better to place before the children (and older ones, too) a wholesome, nutritious, pure food-drink such as

POSTUM

Made only of prime whole wheat and a small per cent of pure molasses, Postum contains only the rich native value of the grain—good for young and old. Postum is free from caffeine or other harmful substance.

Postum comes in two forms:

Regular Postum—must be well boiled to bring out its rich flavor and food value. 15c and 25c packages.

Instant Postum—a soluble powder. A teaspoonful stirred in a cup of hot water—with cream and sugar—makes a delightful beverage instantly. 30c and 50c tins.

The cost per cup of both kinds is about the same.

A Statement.

The man that wrote the piece in the Daily Tribune about the select party at Winell's better find out who the party was. It shows how little sense some people have. If you have any spite don't put it in the newspaper. Go to his face and be a man about it. You may think you hurt somebody's feelings, but you hurt yourself worse than anybody else.

FRED WINELL.

A Statement From Dr. W. B. Heryford

In the Tribune's account of the proceedings of the circuit court of January 27, it is stated that in the disposition of the case of J. R. Heryford vs. W. B. Heryford, the defendant agreed to a division of the costs in the case, and that the defendant was enjoined from practicing medicine in Union township. As this statement was erroneous, a correction seems necessary. The defendant, Dr. W. B. Heryford, did not agree to pay any costs in the case, either of his own or the plaintiff's witnesses. All witnesses who were subpoenaed either by the plaintiff or defendant, will have to take up the matter of securing their fees and mileage with the circuit clerk. Furthermore the order of the court agreed upon did not and does not forbid Dr. W. B. Heryford from treating any patients who come from Union township to his place of residence to secure his services.—Adv.

Resolutions of Respect.

Whereas, It has pleased the Supreme Ruler of the universe to remove from our midst by death the beloved wife of our noble grand, Brother Chester W. Bennett; therefore, be it

Resolved, That we, as brothers and as a lodge, hereby express our sorrow and sympathy to our unfortunate brother in his sad hour of bereavement, and commend him and his sweet little daughter to the tender mercies of Him who doeth all things well.

May your years of usefulness be multiplied as the protector of little Virginia Kathryn, and may her little life, as it unfolds and develops, remind you of her whose happiness you shared for a brief period, but whose memory will extend through eternity, and may she prove a comfort and blessing to you in your declining years.
